

PsA Virtual Masterclass

Hosted by:

Carlo Selmi

Humanitas Research Hospital, Milan, Italy

Wednesday 2 & Thursday 3 December 2020

17:00–18:30 (CET)

Learning objectives

After this meeting, participants should be able to:

- Solidify the foundation in the pathophysiology and classification of PsA
- Explore current management and treatment options in PsA
- Analyse the management of PsA and associated comorbidities with a targeted approach to individual treatments
- Describe the evolving awareness of interactions and common pathways across immune-mediated inflammatory diseases

Programme (all times in CET)

Day 1: Wednesday 2 December

Carlo Selmi, host

- 17:00–17:10 **Welcome and introduction**
- 17:10–17:20 **Pathophysiology and cytokine biology of PsA**
- 17:20–17:40 **Current treatment options in PsA**
- 17:40–17:45 **Short break**
- 17:45–18:20 **Interactive case-based discussions:
treatments and comorbidity management**
- 18:20–18:30 **Close of Day 1**

Day 2: Thursday 3 December

Carlo Selmi, host

- 17:00–17:05 **Welcome**
- 17:05–17:35 **Interdisciplinary cooperation and early diagnosis:
understanding immune-mediated inflammatory diseases**
Antonio Costanzo, Silvio Danese, and Carlo Selmi
- 17:35–17:45 **Q&A**
Antonio Costanzo, Silvio Danese, and Carlo Selmi
- 17:45–17:50 **Short break**
- 17:50–18:00 **Understanding rheumatological diseases through translational research**
Antonio Costanzo, Silvio Danese, and Carlo Selmi
- 18:00–18:10 **Beyond PsA: rheumatoid arthritis, spondyloarthritis, and connective
tissue diseases**
- 18:10–18:20 **Interactive Q&A: participants' burning questions and cases**
- 18:20–18:30 **Close of Day 2**
